

Test Prep SAT-ACT

College Entrance Exams

Own your score. Open your options.

Our SAT and ACT prep removes guesswork and turns effort into results. You'll get expert coaching, a personalized study plan, and data-driven practice so you walk into test day confident and ready to perform.

Our Process

We believe that preparation works best when it's strategic and personalized. Here's how we make it happen:

- **Discovery Interview**

We start with a brief interview to understand your academic background, target colleges, score goals, and application timelines.

- **Diagnostic Benchmark**

We begin with a diagnostic benchmark to identify if the SAT or ACT will be the best fit for you.

- **Tailored Learning Plan**

We build a focused plan from your diagnostic report with a tutoring strategy, lesson sequence, and assignment roadmap aligned to your goals.

- **Instructor Match and Scheduling**

We pair you with specialist instructors and lock in a schedule that fits your calendar.

How We Work

- **Subject-specific instruction**

Reading/Writing and Math are coached separately, typically one hour per week per section.

- **Weekly accountability**

Homework is assigned every session and reviewed at the next meeting.

- **Vocabulary and verbal precision**

You'll receive a Quizlet set. Expect to study and master 20–30 words per week depending on your test date.

- **Specialists by section**

Instructors teach only in their area of expertise and cover every concept and question type on the SAT or ACT.

- **Practice platform access**

After your diagnostic, we set up your digital practice accounts and integrate them with your plan.

- **Proctored practice tests**

As your prep progresses, you'll take at least one proctored full-length exam per month to build stamina and refine pacing, usually on Saturday mornings.

- **Data-rich progress reports**

After each proctored test you'll receive a detailed breakdown with targeted recommendations to adjust your study plan.

- **Flexible format**

Sessions can be in person at home or a nearby location, or online.

Our instructors

- Experienced SAT and ACT coaches for both in-person and online formats
- Math coaches also teach advanced students during the school year at a major partner school in Miami
- Diverse academic backgrounds in STEM or Education, many with graduate degrees
- Proven results with hundreds of students over several years
- Fully fingerprinted, drug tested, and background checked

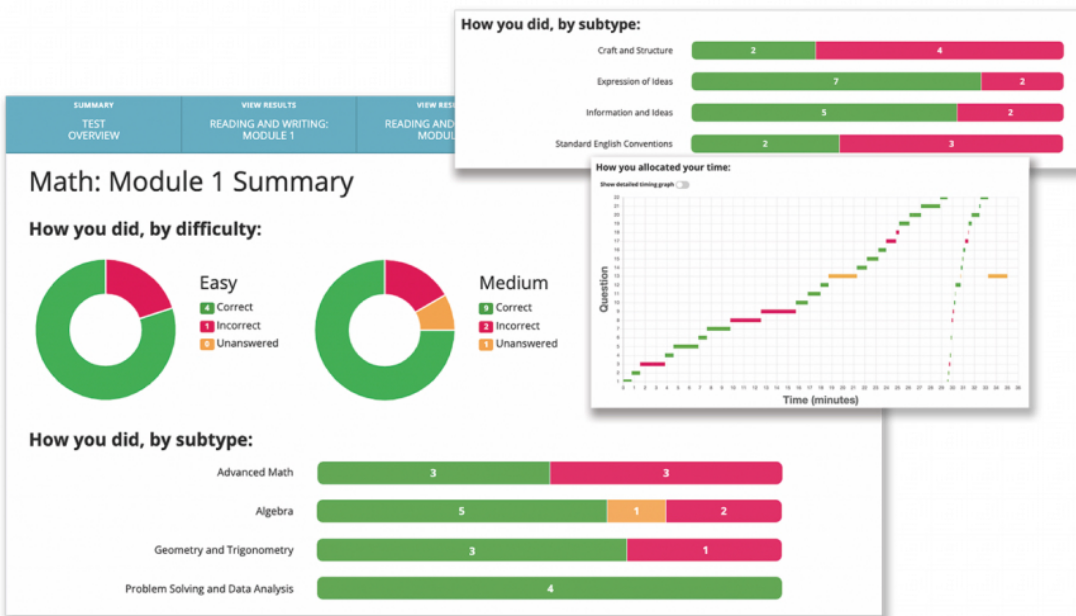

Proctored Tests

Proctored exams mirror real test conditions so you can train pacing, focus, and endurance. Tests are administered on Saturday mornings. After each exam you'll receive a comprehensive score report and next-step recommendations to sharpen your prep before the next milestone.

Digital Testing System

Our digital system personalizes your curriculum, delivers full-length practice tests, and provides precise analytics so you know exactly where to focus.

What you get

Personalized study plan integrated with your tutoring schedule

- 12 Full-length practice tests with realistic timing and interface
- Detailed score reports with percentiles and section/skill breakdowns
- Item-level diagnostics by concept and difficulty
- A bank of 1450+ targeted practice items for homework and in-session drills

Recommended Equipment for Online Classes

- A dedicated computer for the student
- A Wacom tablet or similar stylus pad to show work clearly during Math sessions.
- A good set of headphones.

Our Student Results

97% of Students have been admitted to their top 3 schools of choice.

Average score improvement.

Our students improve their ACT scores by an average of 7–10 points (out of 36) and SAT scores by an average of 200 points (out of 1600).

Book your discovery interview today. Align your prep to your college goals, build momentum with the right plan, and turn practice into the score that opens doors.
